

**Color Choice:**

Color works great! – I like the black white and red contrast

**Fonts:**

The font choice looks good!

**Other Design Thoughts:**

Personally, I prefer the second option. It's more interesting and engaging.

Is it possible to make the “Our journey continues...” a button so when people click on the “continue” it will direct to another page?

Is it possible to make the image like a clickable gallery?

Otherwise, all things look good.
